## MERN Stack Developer

📍 Karachi, Pakistan    📞 0315-8965825    ✉ gmustufa1255@gmail.com  
🌐 linkedin.com/in/ghulam-mustufa    🏠 github.com/G-Mustafa1

## Summary

MERN Stack Developer with hands-on experience building scalable full-stack applications using MongoDB, Express.js, React.js, and Node.js. Skilled in REST API development, JWT authentication, and responsive UI design. Experienced in collaborative team environments with focus on clean architecture and performance optimization.

## Skills

**Languages:** JavaScript, TypeScript (Basics)

**Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Redux Toolkit

**Backend:** Node.js, Express.js, REST APIs, JWT Authentication

**Database:** MongoDB, Firebase

**Tools:** Git, GitHub, Cloudinary

## Experience

### Full Stack Developer Intern

Feb 2026 – Present

Zaitoon Ashraf IT Park, Karachi

- Developed **2+ MERN applications** in a collaborative team environment.
- Contributed to **Bootcamp Tracker** and **Meeting Mind** systems.
- Improved development efficiency by **20%** using reusable components.
- Optimized performance and resolved frontend/backend issues.

### MERN Stack Trainee

2025 – 2026

Saylani Mass IT Training (SMIT), Karachi

- Built **3+ full-stack projects** with authentication and API integration.
- Gained hands-on experience in backend logic, database design, and frontend architecture.

## Projects

### Health-Mate — Health Management System

*React.js, Node.js, Express.js, MongoDB*

- Built full-stack system for managing health records and structured data.
- Designed dashboard improving user experience and data accessibility.
- Implemented JWT authentication and secure REST APIs.

**Live Demo** — **Source Code**

### Meeting Mind — Meeting Intelligence System (Team Project)

*React.js, Node.js, Express.js, MongoDB*

- Collaborated with a team to develop a meeting and task workflow system.
- Built and integrated backend APIs with frontend features for multi-user functionality.
- Followed Git-based workflow for version control and team collaboration.

### Bootcamp Tracker — Role-Based System (Team Project)

*React.js, Node.js, Express.js, MongoDB*

- Worked in a team to build a role-based system with Admin, Teacher, and Student modules.
- Developed dashboards and performance tracking features collaboratively.
- Coordinated with team members to ensure smooth API integration and feature delivery.

## Education

### Intermediate in Computer Science

Karachi

Government Degree Boys College (KMC Store)

### Matriculation in Computer Science

Karachi

Govt. M.H. Gazdar Boys Secondary School

## Certifications

- MERN Stack Development — Saylani Mass IT Training
- Coding Night Hackathon Participation (2025, 2026)
